

III. REMARKS

1. Claims 18 and 20 are proposed to be amended.
2. The Examiner has rejected claims 16 and 20 under 35 U.S.C. §112, second paragraph. Applicant respectfully notes that the objected to language does not appear in claim 16, but rather in claim 18. Claim 16 should therefore be allowable.

Claim 18 recites requiring extra secure communication services. The term "extra secure communication" is well defined and supported by the specification. See for example, page 4, line 27, et. seq. See also FIGS. 2 and 3, and the descriptions related thereto. The descriptions indicate the differences between normal communications and the extra secure communications. Thus, the term will be well understood when viewed in the context of the specification. Applicant may use their own terminology when it can be understood. MPEP §608.01(g). The meaning of every term must be apparent from the specification. MPEP §608.01(o). Thus, given the breadth with which the term is defined in the specification, it should not be deemed indefinite. The rejection of claims 18 and 20 should be overcome.

Claim 20 is amended to depend from allowed claim 6. Claim 20 should now also be allowable.

The Commissioner is hereby authorized to charge payment of a two-month extension of time along with any other fees associated with this communication or credit any over payment to Deposit Account No. 16-1350.

Respectfully submitted,
